## Facilitators: Updates & Call for Support

Potential Future presentation on the new BCA System implementation:

In AWG #32, discussed idea of having BCA deliver a 1 hour seminar/workshop on the implementation of their new CAMA system and any role ParcelMap BC played (benefits, integrations and such). *Question(s): a) Would this be of interest to the community? and b) Is BCA interested in presenting a webinar on this?*

Migration of Basecamp Content:

Relevant content for all 32 workshops has been migrated from Basecamp and moved to its new home on LTSA's Help web site (*kudos to Irshad & Lilibeth!*): <https://help.ltsa.ca/parcelmap-bc/adoption-working-group-summary-notes-and-slide-decks>  
*Up next: Updates to the [ParcelMap BC AWG info page](#) to reflect the latest changes in this group.*

Customer Segment Market Strategy:

LTSA is organizing a customer segment market strategy – an extension on the AWG concepts of the LMFG & UFG. Focused beyond ParcelMap BC & building on some Issues Log “Opportunities”, this is targeted at exploring business value driven workflows in the local government and large interest holder customers. *Let us know if you know of any interested organizations!*
