

# Provincial Organizations' Use of ParcelMap BC

Organized by:

ParcelMap BC Adoption Working Group

December 7<sup>th</sup>, 2022

Part of the ICI Society's  
Virtual Café series

# Agenda

<b>Brief Introduction</b> - <i>Brian Greening (LTSA)</i> - 5 min	1:00 pm
<ul style="list-style-type: none"><li>• <b>BC Premises ID Program Use of ParcelMap BC</b> (10 mins) <i>Anders Hopperstead (Senior Premises ID Program Analyst, Ministry of Agriculture &amp; Food)</i></li></ul>	1:05 pm
<ul style="list-style-type: none"><li>• <b>GeoBC's Use of ParcelMap BC</b> (15 mins) <i>Scott MacPhail (LUIR Team Lead, Ministry of Land, Water &amp; Resource Stewardship)</i></li></ul>	1:15 pm
<ul style="list-style-type: none"><li>• <b>BC Data Service's Use of ParcelMap BC</b> (10 mins) <i>Colin Newall (Team Lead, Data Management, Ministry of Citizens' Services)</i></li></ul>	1:30 pm
<ul style="list-style-type: none"><li>• <b>Modernizing highway tenure research with the LTSA &amp; MoTI</b> (15 mins) <i>Peter Spry (Senior Spatial Tech. Analyst, MoTI and Taylor McInnes, Product Owner, Product Portfolio, LTSA)</i></li></ul>	1:40 pm
<ul style="list-style-type: none"><li>• <b>Leveraging ParcelMap BC at BC Assessment</b> (10 mins) <i>Tom O'Brien (Senior GIS Analyst, BC Assessment)</i></li></ul>	1:55 pm
<ul style="list-style-type: none"><li>• <b>Lands Branch ParcelMap BC Adoption</b> (10 mins) <i>Scott Griffiths (Manager, Major Initiatives, Lands Branch, Ministry of Forests)</i></li></ul>	2:05 pm
<ul style="list-style-type: none"><li>• <b>FrontCounter BC's Use of ParcelMap BC</b> (5 mins) <i>Shana Bow (Operations Services Supervisor, FrontCounter BC, Ministry of Land, Water &amp; Resource Stewardship)</i></li></ul>	
<b>Close Out, Questions &amp; Discussion</b> (10 min)	

# Welcome & Opening Remarks

## Workshop

A [ParcelMap BC Adoption Working Group](#) resource, presented as part of the ICI Society Virtual Café series

*“MUNI was instrumental in its role on the Integrated Cadastral Information Society Board in supporting the development of ParcelMap BC from concept through to implementation. ParcelMap BC has proven to be a reliable, current and complete mapped representation of titled and Crown land parcels across B.C. ParcelMap BC is a “go-too” spatial resource for Local Government Division Staff.”*

**Michael Marson, Manager, Governance Services, Ministry of Municipal Affairs**

*“We rely on the accuracy of ParcelMap BC data from parcel identifiers, full legal descriptions, as well as the positional accuracy of all features.”*

**Gabriel Hazaparu, GIS Coordinator, ALC**

*“Surveyor General staff were quick to realize the benefits of ParcelMap BC when it was first rolled out more than six years ago. ParcelMap BC provides a virtually seamless graphical representation of parcels and interests recorded in both the land title register and the Crown land registry. Furthermore, we know that the data in ParcelMap BC is complete and current.”*

**Dave Swaile, Senior Deputy Surveyor General, LTSA**

*“Of all the great features, one of my favorites is the ability to order documents such as plans and charge documents directly from ParcelMap BC. In addition, the integration of ParcelMap BC with our spatial representation of the Highway Tenure layer (in development), and the ability to search by parcel identifier and plan has greatly improved our research capabilities.”*

**Erika Jamieson, Highway Tenure Analyst, MoTI**

# BC Premises ID Program Use of ParcelMap BC

**Anders Hopperstead, Senior Premises ID Program Analyst**  
**Ministry of Agriculture & Food**

Ministry of  
Agriculture, Food  
and Fisheries

## Why is Parcel Data Important to Premises ID?

- Premises Identification is a program designed by the Federal Government to support public responses to animal disease outbreaks
- Provinces take responsibility for their issuing Premises IDs to locations where animals are kept or dealt with
- A Premises ID is an anonymous nine character code with a one-to-one relationship with a legal land description

Ministry of  
Agriculture, Food  
and Fisheries

## Why Not Just Use Street Addresses?

Animal disease outbreaks are managed on a parcel basis because one operation on a single parcel can have multiple addresses.

# How did we Ensure Parcel Integrity Before ParcelMap BC?

- Researched Land Titles Parcel IDs (PIDs) in five different fabrics

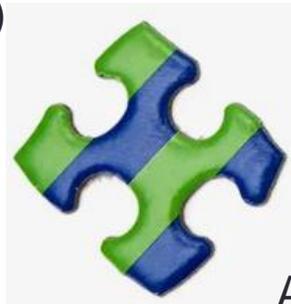

Integrated Cadastral  
Fabric (ICF)

ICI Society

Municipal  
Fabrics

BC  
Assessment

Regional District  
Fabrics

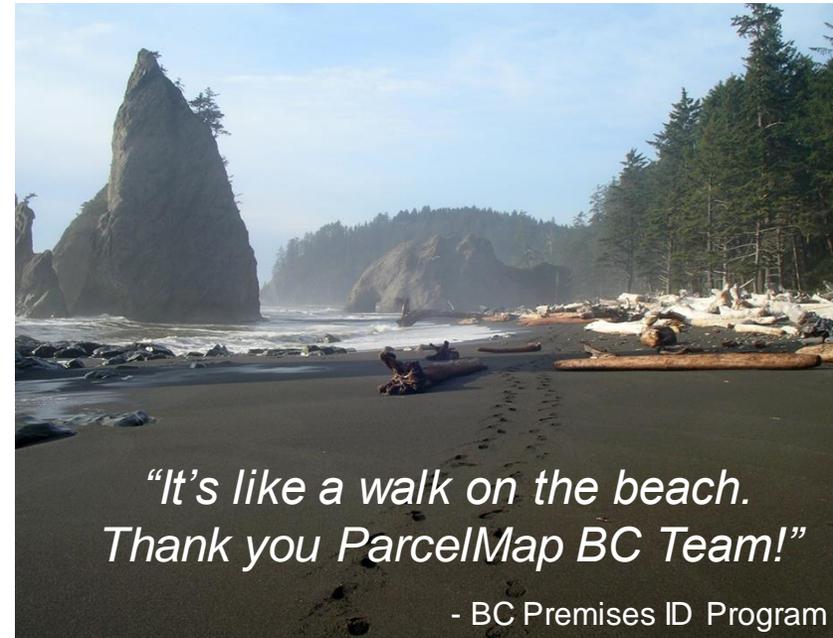

Ministry of  
Agriculture, Food  
and Fisheries

## What does the Success of ParcelMap BC mean to the Premises ID Program?

- Huge reduction in staff time devoted to PID research
- Simple Implementation of Program routines, such as 24/7 issuance of Premises IDs if the corresponding PID is entered during registration
- Confidence that parcel-based program maps and analysis will be correct

# GeoBC's Use of ParcelMap BC

Scott MacPhail, LUIR Team Lead  
Ministry of Land, Water & Resource Stewardship

## *GeoBC use of Parcel Map BC*

First – some background

- GeoBC maintains the survey parcel information in the Crown Land Registry (Tantalis)
- These are surveys where the Crown has an interest, including Primary parcels, SRW's, Highways, etc
- Most primary parcel surveys are more than 100 years old
- Private land surveys were rarely used and Survey Control was scarce during the initial build

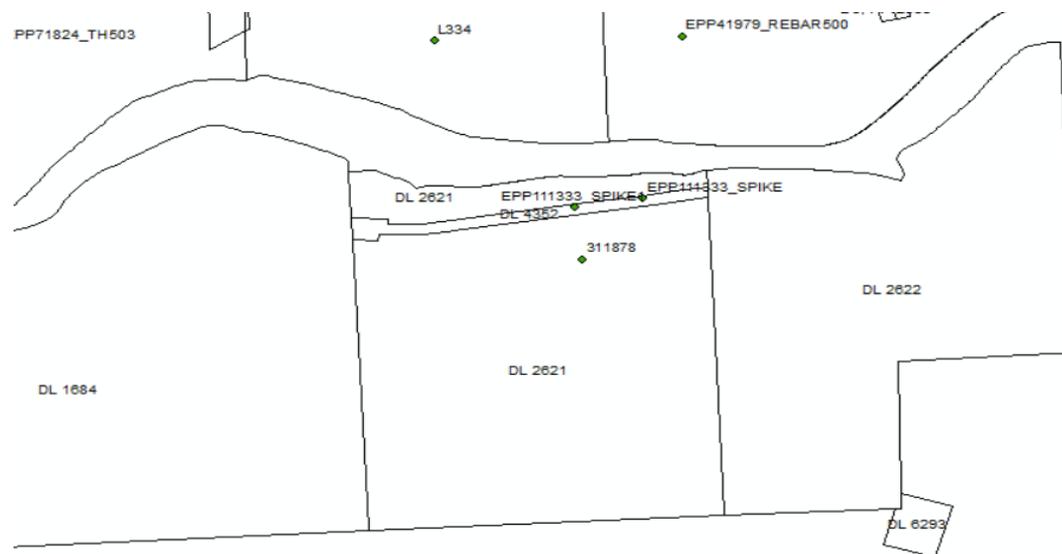

## *GeoBC use of Parcel Map BC*

- ParcelMap BC survey control has had the biggest impact on Tantalus
- Prior to the requirement for surveyors to establish control for surveys, the Crown would not have been aware of these points
- Most rural data in Tantalus is not positionally accurate
- New GPS information combined with more recent subdivision, SRW and Road surveys allows the fabric to be rebuilt to higher standards

## GeoBC use of Parcel Map BC

Example – same area as previous map

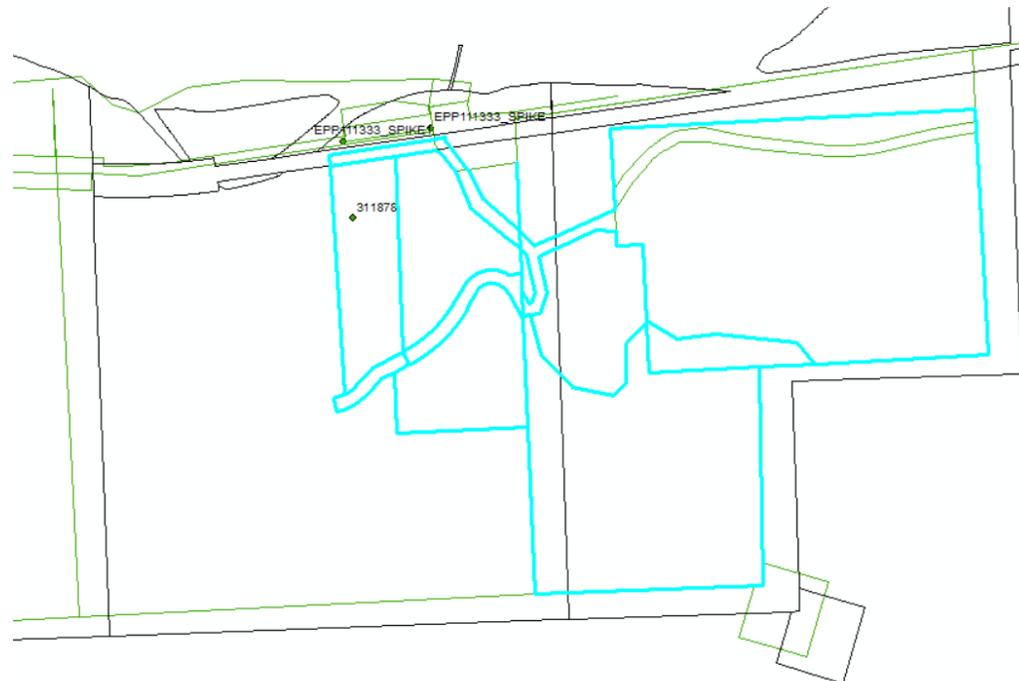

- Client reports issue with DL boundary in SE of this area
- First check is to see if there is new control nearby

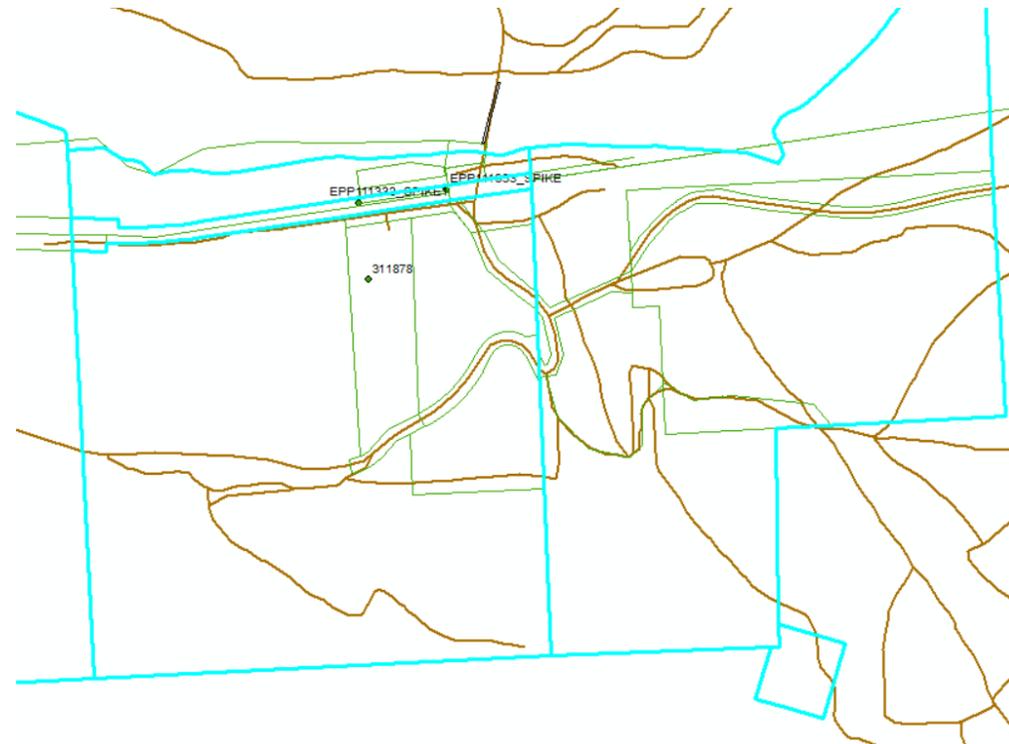

## GeoBC use of Parcel Map BC

- Subdivision plans were then used to build off the new survey
- These were then rotated to the new survey and used to re-establish the primary parcel boundaries

## GeoBC use of Parcel Map BC

- Final results with roads shown to illustrate fit with base

# BC Data Service's Use of ParcelMap BC

Colin Newall, Team Lead, Data Management  
Ministry of Citizens' Services

# BCDS

BC Data Service

## Use of ParcelMap BC

**Dec. 7, 2022**

Ministry of  
Citizens' Services

# About BC Data Service Division

## • Programs

- BC Stats
- DataBC
- Data Innovation
- Data Science Partnerships

## • Services

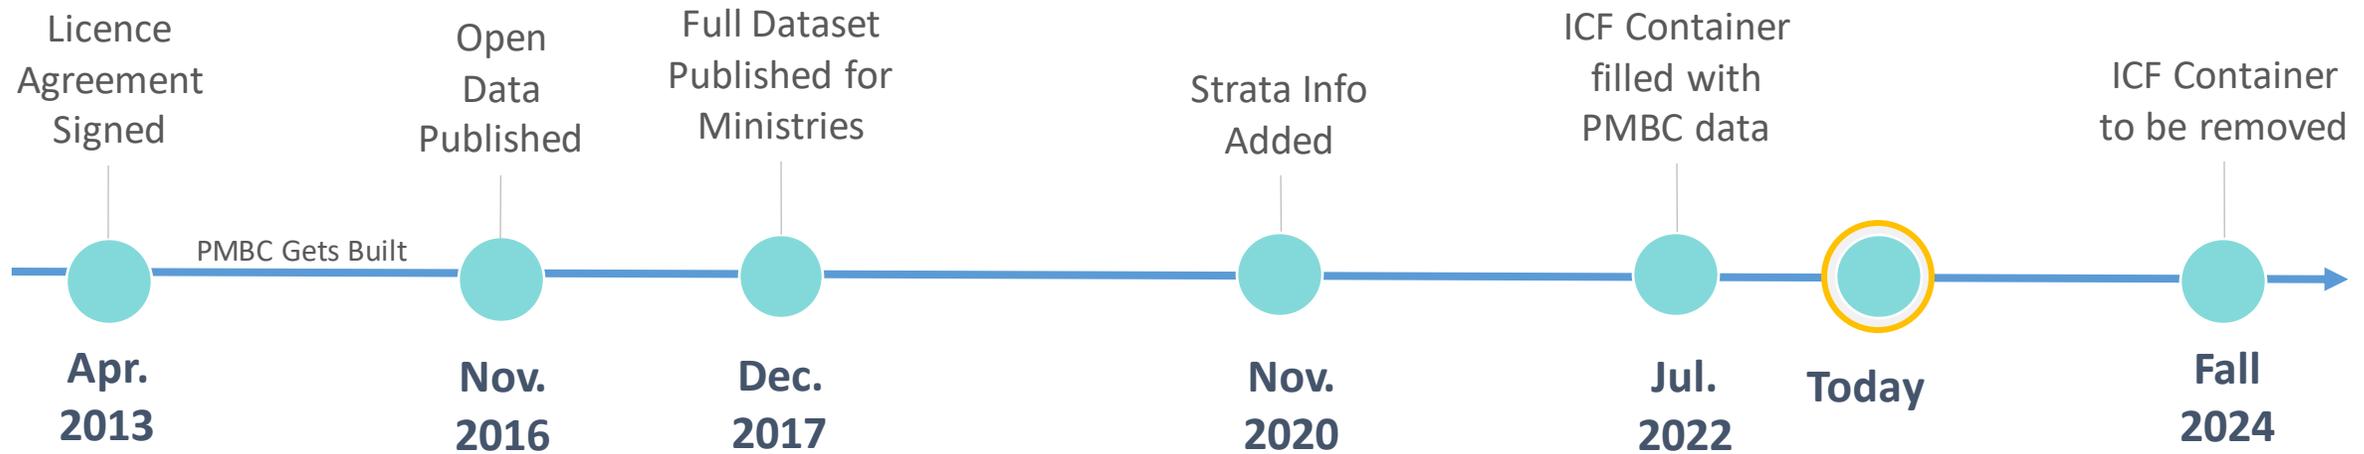

- Strategic data management
- Data discovery and publication
- Web-based maps
- Location services
- Research and analytics

## • Major Priorities

- Implementing BC's Anti-Racism Data Act
- Implementing the BC Data Plan
  - Data Governance Reform
  - Indigenous data sovereignty
  - Enabling use of Indigenous names
  - Developing equity data standards
  - Data Management Policy

# Using ParcelMap BC Data

**ParcelMap BC Parcel Fabric** PUBLISHED

**Published By**  
[DataBC Program](#)

**Description**  
ParcelMap BC (PMBC) is the single, complete, trusted and sustainable electronic map of active titled parcels and surveyed provincial Crown land parcels in British Columbia. This particular dataset is a subset of the complete ParcelMap BC data and is comprised of the parcel fabric and attributes for over two million parcels published under the Open Government Licence - British Columbia.

**Notes:**

1. Parcel title information is sourced from the BC Land Title Register. Title questions should be directed to a local [Land Title Office](#).
2. This dataset replaces the [Integrated Cadastral Fabric](#).

# HIGHWAY TENURE IS TRICKY

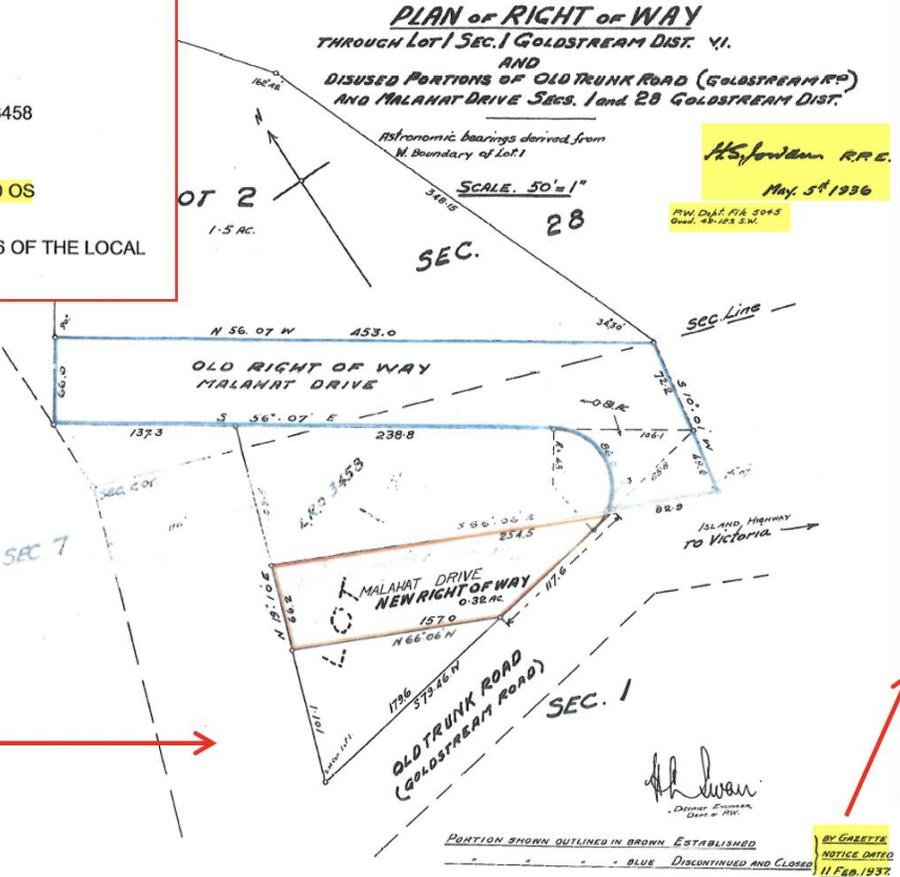

- Because establishing highway tenure requires research—sometimes a great deal of it.
- Some evidence is over 100 years old.
- MoTI's Property and Land Management Branch have a **50 slide** overview of the topic.

# RESEARCH ASSEMBLED AND SHARED

Ministry of  
Transportation  
and Infrastructure

**ROSSLAND-TRAIL ELECTORAL DISTRICT**  
**TRAIL-SALMO-NELSON HIGHWAY**  
NOTICE is given, pursuant to section 8 of the "Highway Act," that the following described road allowance is hereby established as a public highway, namely:—  
All those portions of Blocks 296 to 307, inclusive, Plan 785a; Blocks 311 and 312, Plan 785b; Lots 2 and 3, Plan 2421; and Lots 2, 3, and 4, Plan 1983, all of District Lot 1236, Kootenay District, as shown outlined in red on plan prepared by J. G. S. Hirtle, B.C.L.S., and deposited in the Land Registry Office at Nelson, B.C., and there numbered "Plan No. R 139."  
A copy of the said Registered Plan No. R 139 is deposited in the Provincial Department of Public Works, Victoria, B.C., under "Road Surveys 725-20."  
P. A. GAGLARDI,  
Minister of Public Works.

# PART TWO

From GeoTIFF to  
performant image  
mosaic web service

## GEOTIFF TO IMAGE MOSAIC

- The GeoTIFFs are often huge. Largest, so far, is 4½ Gigabytes.
- 1,200+ files to date consume ¾ Terabytes of storage.
- Choose S3, Object Storage in BCGov, at 7¢/Gigabyte/month
- Size makes normal handling of these files impractical.
- MoTI's Steve Schmuland developed a method to compress these files to a tiny fraction of their original size.—0.6% on average
- This compression enables great performance

- **\*\*Checks if Multiband Raster\*\***
- 1. Pulls image from image server
- 2. Convert to Grayscale
- 3. Slice Grayscale Raster by 2 (Equal Interval)
- 4. Set Null values to 2
- 5. Convert raster to point shapefile
- 6. Extract multi values from point shapefile (retains RGB values from pixel point lands on)
- 7. Field calculator, Takes RGB value and returns closest colour value to 0 or 255
  - RED 255,0,0
  - GREEN: 0,255,0
  - Yellow: 255,255,0
  - BLUE: 0,0,255
- the colour values (0:TRANSPARENT,1:BLACK,2:RED,3:GREEN,4:Yellow,5:BLUE)
- 8. Converts Point Shapefile to Raster with similar cell size of the original

## IMAGE PROCESSING/COMPRESSION

```
<RasterSymbolizer>
  <ColorMap type="values">
    <ColorMapEntry color="#FFFFFF" quantity="0" label="transparent" opacity="0"/>
    <ColorMapEntry color="#080808" quantity="1" label="black" opacity="1"/>
    <ColorMapEntry color="#FF0000" quantity="2" label="red" opacity="1"/>
    <ColorMapEntry color="#00FF00" quantity="3" label="green" opacity="1"/>
    <ColorMapEntry color="#FFFF00" quantity="4" label="yellow" opacity="1"/>
    <ColorMapEntry color="#0000FF" quantity="5" label="blue" opacity="1"/>
  </ColorMap>

# PMBC Team and BCA GIS Team

BCA and LTSA have collaborated and supported each other since the inception of Parcel Map BC.

Our GIS Team, ParcelMap Team, and the folks at ICI Society **continuously improve** these datasets through active feedback and review.

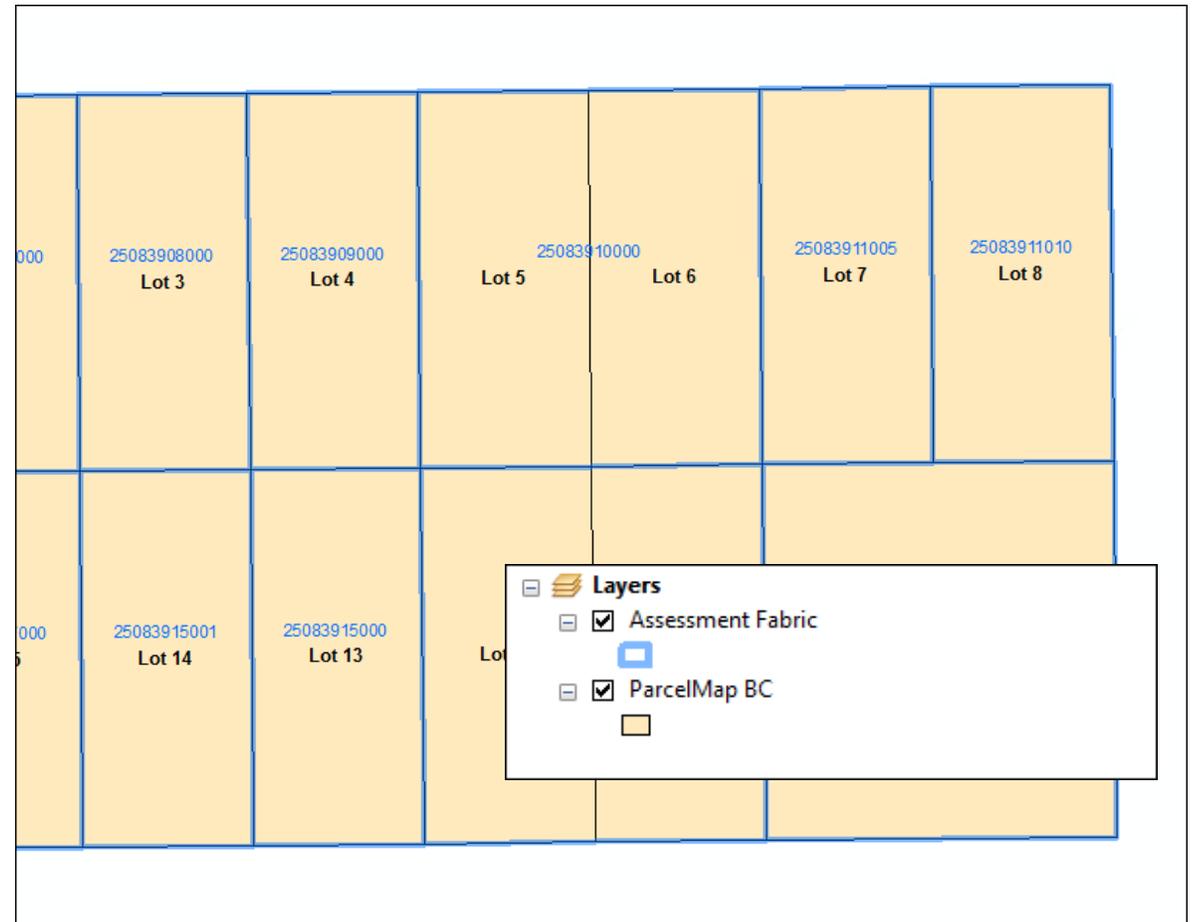

BC Assessment has 100's of eyes on these maps every day.

# Assessment Fabric vs ParcelMap BC

PMBC has a many-to-one relationship with the Assessment Fabric.

There may be multiple lots dissolved into one AF polygon.

Example – Lot 5 and 6 centerline dissolved for folio 25083910000

# Assessment Fabric Composition

Source	Description	Parcel Count	Percent
PMBC	<b>Parcel Map BC</b>	<b>2083390</b>	<b>96%</b>
BCA	Diamond placeholders	21720	1%
NRCAN	First Nations Parcels	18886	0.8%
CT	Crown Tenures	15176	0.7%
WELLS	GDM Wells (Oil and Gas)	15138	0.7%
PIPES	GDM Pipelines (Oil and Gas)	10077	0.5%
ICIS	ICI Society Cadastre	5002	0.2%
SP	Crown Survey Parcels	3296	0.15%
NISGAA	Nisga'a Parcels	947	< 0.1%
SUP	Special Use Permits	836	< 0.1%
PMV	Port Metro Vancouver Leases	800	< 0.1%
RW	Crown Right of Ways	236	< 0.1%
NPA	Nanaimo Port Authority Leases	79	< 0.1%

# Assessment Fabric Utility

The AF can be used to join to other datasets provided by BC Assessment on jurisdiction and roll number.

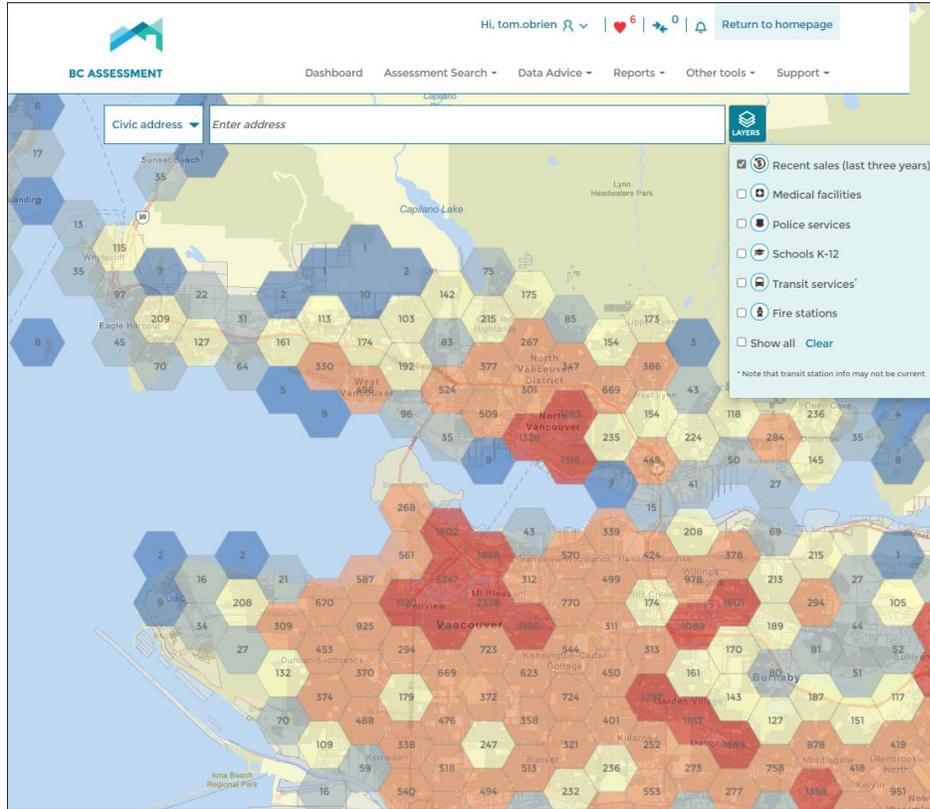

Any BCA report or table should have a JUROL field, and if not you can request it. You can then join directly to the Assessment Fabric

Jurisdiction + Roll Number = JUROL  
JUROL || AFP\_OID

OPS.SDE.ASSESSMENT_FABRIC_POLYGON						
	OBJECTID *	AFP_OID *	JURISDICTION	JUR_NEIGH	CREATION_DATE

Property Mapping

# Summary

- BCA has worked with the LTSA since the inception of Parcel Map BC.
- BCA continues to collaborate with the LTSA and ICI Society to continuously improve the cadastre product.
- Parcel Map BC has provided use with a stable, accurate, and standardized cadastre dataset for uses throughout our organization and our public website.

# Thank you!

# Lands Branch ParcelMap BC Adoption

**Scott Griffiths, Manager, Major Initiatives, Lands Branch  
Ministry of Forests**

Ministry of Forests

# Lands Branch PMBC Adoption

- Integration of PMBC data layer within Crown Land Registry (Tantalis)
- Retirement of Online Cadastre – adoption of PMBC/iMAP

December 2022

# Integration of PMBC into Crown Land Registry – Tantalis

- Integration of PMBC layer into Tantalis spatial viewer allows Lands program staff to directly compare PMBC spatial data with Tantalis - Survey Parcel data
- Staff can easily and directly access PMBC data from within CLR spatial toolset (Edit Your Online Registry – EYOR)

The screenshot displays the 'Natural Resource Online Services' Staff Portal. The top navigation bar includes 'Tasks', 'Payments', 'Clients', and 'Preferences'. The user is logged in as 'Scott Griffiths'. The main interface features a map with a grid overlay and a 'Layers' panel on the right. The 'Layers' panel lists several layers, including 'Survey Parcels', 'Interest Parcels', 'Land Ownership', and 'PMBC - ParcelMap BC Parcel'. A 'Find' panel on the right allows users to search for parcels by ID. The map shows a grid overlay and a highlighted area.

## Retirement of Online Cadastre (ICF) – replace with PMBC/iMAP

- Lands Branch is responsible for GATOR website
- GATOR has leveraged OLC/ICF for approximately 20 years to provide users with a spatial view of Crown Land Registry interests
- Pending retirement of OLC/ICF layer has driven adoption of PMBC and iMAP to present spatial results from GATOR searches
- GATOR creates a unique link to iMAP, including PMBC layer in view of CLR interests

# GATOR Search screen – link to OLC and iMAP

a100.gov.bc.ca/pub/pls/gator/gator\$querylist\_detail.parcel\_detail?v\_Pin\_Sid=130&v\_Historical=ON

Home / Farming, Natural Resources & Industry / Crown Land & Water / Crown Land & Water Use / GATOR / GATOR Search Menu /

## GATOR Parcel Details

Search Criteria: PIN: 130, Tenure History: On

Legal Description	Images
DISTRICT LOT 1, ALBERNI DISTRICT.	<b>Crown Grant:</b> <a href="#">View Image(s)</a>
	<b>Survey Fieldbook:</b> No Images Available
	<b>Survey Plan:</b> No Images Available
	<b>Map:</b> <a href="#">Online Cadastre</a> or <a href="#">iMapBC</a>

OLC link will be removed/retired from GATOR in mid-December 2022

- GATOR creates unique link to iMAP, highlighting CLR interest, while also providing relevant layers for GATOR users

The screenshot displays the iMapBC web application interface. At the top, the browser address bar shows the URL: [maps.gov.bc.ca/ess/hm/imap4m/?catalogLayers=2230,2229,2227,2226,2214,2212,5898&attributeSearch=2230,PIN\\_SID,130%20](https://maps.gov.bc.ca/ess/hm/imap4m/?catalogLayers=2230,2229,2227,2226,2214,2212,5898&attributeSearch=2230,PIN_SID,130%20). Below the browser, there are navigation links for "Explore by Location...", "Integrated Land an...", "My Time and Pay", "Manager Self Service", "Land Act Systems -...", "IRS", "OCIO Service Catal...", "CLR Survey Plan Tra...", and "CLR Team Site".

The main header features the "BRITISH COLUMBIA | iMapBC" logo and a navigation menu with "Home", "Data Sources", "Export", "Sketch", "Find", and "Help". Below the header, there are four icons for "My Layers", "Add Provincial Layers", "Upload Data", and "Add External Layers".

The central part of the interface is a map showing a geographical area with various colored overlays. A yellow outline highlights a specific area on the map. A blue box with the text "I want to..." is positioned above the map. The map includes labels for "R/W Plan" numbers and "Port Alberni".

On the left side, there is a "Layers" panel with a search bar "Filter Layers..." and a "Filter" button. The panel lists several layers with checkboxes and expandable arrows:

- Tenures - Tantalus - Outlined
- PMBC Parcel Cadastre - Outlined
- Land Act Survey Parcels - Tantalus - Legal Descriptions
- Land Act Survey Parcels - Tantalus - Outlined
- Tenure Applications - Tantalus - Outlined
- Land Act Surveyed Rights of Way Parcels - Tantalus - Outlined
- Land Act Surveyed Rights of Way Parcels - Tantalus - Legal Descriptions

## Ongoing Lands Program support for PMBC adoption

- Lands program has integrated PMBC in our work tools and analysis, no longer using OLC/ICF for verification of private ownership interests
- Lands program continues to work with PMBC team to validate/update shapes from CLR as may be required over time
- Coordinated effort will continue to support adoption of PMBC, while also improving the cadastral fabric itself through iteration and improvements to identified survey data within source registries
